Being safe at carnivals:

- **Please stay behind the barriers**
There are placed there for your safety
- **Please do as the marshals wearing high vis. yellow jackets say**
They are there to help and protect you
- **Please do as the carnival float road crew says**
They are there to make sure that you do not get injured by a float
- **Please throw money ONLY at the collection vehicles**
Or put in a collectors tin/bucket
- **Please don't rush out into the road to pick up stray coins**
They will be swept up later, and you could be injured by on-coming vehicles in the procession
- **Please do not try to cross the road during the procession**
Ask a marshall to see you safely across the road if you must move whilst watching the procession
